Technology
Addiction

Technology has been specifically designed to pray upon our addictive tendencies. We must understand these vulnerabilities and take action to protect future generations from becoming a statistic.

FACTS:

Every 9 minutes a child is a victim of online abuse;
2 out of 3 are under the age of 15.

On average, children view pornographic images by 8 years old and become chronic viewers by 11.

The amount of time a child is engaged on social media correlates directly with lower self-esteem, increased anxiety and depression.

275 million lawsuites are filed annually against schools & organizations due to online issues.

THESE STATISTICS ARE UNACCEPTABLE

THE DC ACADEMY
DIGITAL CITIZEN

DCA is a prevention & diversion training program focused on eliminating core issues like
CYBER-BULLYING, TECHNOLOGY ADDICTION, CHILD LURING & SUICIDE.

WHAT CAN YOU DO ABOUT THIS?

1 | Make sure that schools in your area are DCA Trained & Certified!

2 | Sponsor a home program or a school to make sure this much-needed education is in every home and school in the USA.

3 | Become Certified to teach the DCA program so that we can educate even more schools and families!

Program Impact Score

66% Decrease in Technology Related Infractions

20% Increase in "Learning" or "Digital Citizenship"
